

The value of working as a GP in residential aged care

Working as a GP in residential aged care offers a unique and rewarding opportunity to deliver high-quality, patient-centred care while making a meaningful contribution to the community.

Key benefits include:

- Building deep, meaningful relationships with residents and families
- Making a real impact on quality of life for a vulnerable cohort
- Working more collaboratively within a multidisciplinary care team
- Enjoying flexible working hours and improved work-life balance
- Giving back to the community in a meaningful way
- Delivering person-centred end-of-life and palliative care
- General Practice in Aged Care Incentive (GPACI) supports practice financial viability. Scan the QR code for more information.
