

Team Care Coordination

Staying Healthy Staying Home

A short-term care coordination program for people living with long term chronic health conditions

This program aims to improve patient's self-management and quality of life by supporting them to remain living well at home through

- provision of disease, health and community service information/education
- coordination of health, community and social support services including navigation through My Aged Care and NDIS.

How to refer to Team Care Coordination

- complete a Staying Healthy Staying Home electronic referral via Metro North's refer system refer.health.qld.gov.au

OR

- complete an eReferral template imported from www.brisbanenorthphn.org.au

Eligibility

Patients are eligible if they:

- have at least one or more chronic complex medical condition
- live in the Metro North catchment
- are not living in a residential aged care facility
- are not receiving other comprehensive support packages or end of life palliative care services.
