Communicating and Engaging with People Living with Dementia

Workshop overview:

Workshop 1: 9.30 am-12.30 pm

'Supporting Successful Communication' explores the difficulties people living with dementia can experience in communication and the impact this has as the condition progresses. You will learn to identify barriers to communication and develop strategies to support successful communication for the person living with dementia and those in the support relationship.

Workshop 2: 1.30 pm-4.30 pm

'Achieving Purposeful Engagement' provides an understanding of the importance of meaningful and purposeful engagement for people living with dementia.

(Please note: This workshop is only open to health professionals working in the [Brisbane North PHN region](#))

Lunch will be provided

Who should attend?

Nurses, Support workers and Allied Health staff caring for people living with dementia in residential aged care

* Please note you can register for one or both of the workshops.
