

INVITATION FOR GPs: Supporting adults with Attention Deficit Hyperactivity Disorder

Thursday 7 December 2023

Metro North Health and Brisbane North PHN invite GPs to join your general practice colleagues and staff specialist adult psychiatrist Dr Ravinder Sohal for a state-wide discussion about adult Attention Deficit Hyperactivity Disorder (ADHD).

Attention Deficit Hyperactivity Disorder (ADHD) is a neurodevelopmental disorder causing a persistent pattern of inattention and/or hyperactivity and impulsivity. Contrary to popular belief, the symptoms do not disappear in adulthood. ADHD has gained prominence in the public conversation and GPs are commonly approached with related inquiries.

Adult ADHD is estimated to affect at least three per cent of the adult population of Australia (500,000 individuals). Of that three per cent, it is further estimated that 75 per cent are unaware that they have the condition, and thus are both unassessed and untreated.

Topics will include recognising and co-managing adult ADHD, supporting patients who are exploring a diagnosis of ADHD, resources for GPs, families and patients with ADHD, as well as prescribing considerations for GPs caring for patients with adult ADHD.

Participants are invited to submit their questions prior to the event when registering or via the chat function during the event. Participants are encouraged to reflect on their own patients and bring any suitable case studies with them, to reflect on their approach to their patients during the webinar, and how they may adjust their practice as a result of information learnt during the event. Dr Sohal will also be using case studies to highlight relevant points during the evening.

For more information, please email mhaod@brisbanenorthphn.org.au.

EVENT DETAILS

DATE:

Thursday 7 December 2023
6.30–8.00 pm
