

# Creating a Medication Management Plan—completing a Home Medicines Review

## Best Practice – using the Enhanced Primary Care template

Complete a DMMR–HMR and claim Medicare Item 900 after developing a Medication Management Plan as per MBS requirements. This should follow a discussion with the patient about the DMMR–HMR report.

1. From the patient screen, expand **Enhanced Primary Care**, click **Medication reviews**, then click **Add**.

2. Refer to the drug **problems** identified and recommended **actions** in the Home Medicines Review report.
3. Discuss proposed plan of action with the patient. Select each drug one at a time, and complete the fields as required. Click **Save**.

Medication Review

Drug name	Strength	Dose	Regular	Last script	Reason for prescription
