

## Online Dementia Training | For General Practice Staff

As part of the 'Enhancing Dementia Care' project run by Brisbane North Primary Health Network, we are pleased to offer dementia specific training for General Practice staff through our online training portal. The courses available in the General Practice staff training portal are:

**Dementia Discovery (3 hours) | 15 minute modules**

Micro courses on foundational dementia knowledge

**The View from Here for RAC/Community (2 hours) | 30 minute modules**

Dementia and the Brain, Person Centered Care & Communicating with a person with dementia

**Creating sustainable environments (3 hours) | 30 – 45 minute modules**

How the environment impacts & benefits people living with dementia

General Practices can pick and choose from the above courses depending on your staff's requirements. At the end of each course staff can download a certificate of completion for continuing professional development points.

**To access the training portal:**

<https://dta.com.au/ttp/brisbane-north-phn/>

and register a DTA account. Once registered, staff will be emailed a unique access code.

**Cost:** Funded by the Australian Government
