

## COVID-19 flu clinic resources for general practices

**This document contains a range of resources to support general practices providing immunisation services during the COVID-19 outbreak.**

Practices are also advised to contact the local Public Health Unit on (07) 3624 1111 for all immunisation enquiries.

### Recommendation for provision of immunisation services

For information and advice regarding the provision of immunisation services please refer to the [Queensland Health COVID-19 advice for vaccine service providers](#).

Some additional resources include:

- [APNA - Hot tips for flu clinics during COVID-19](#)
- [Australian Immunisation Handbook](#)
- [Brisbane North PHN - Resources for Immunisation Providers](#)
- [HotDoc - Flu Clinic Kit COVID-19](#)

### Cold chain management

- For information on cold chain management including instructions on using coolers for vaccine transport, refer to the [National Vaccine Storage Guidelines 'Strive for 5' document](#).

### CAT4 recipes

#### Identify patients at risk for Influenza based on age, ethnicity or pregnancy

At risk groups include:

- Patients  $\geq$  65 years of age
- Indigenous patients  $\geq$  6 months of age
- Pregnant women

To view this recipe visit the [PenCS website](#).

#### Identify patients at risk for influenza with predisposing conditions

Patients  $\geq$  6 months of age with conditions predisposing to severe influenza; these include: CHD, Heart failure, COPD, Asthma, Diabetes and Renal failure.

To view this recipe visit the [PenCS website](#).
