

# INVITATION

## Empowering health: self collection cervical screening in primary care webinar

Tuesday 24 October OR Wednesday 1 November 2023

Practice managers, GPs, nurses, nurse practitioners, Aboriginal and Torres Strait Islander health workers are invited to join our distinguished speakers Dr Meg Cairns and Jennie Haarsager for an insightful webinar hosted by Brisbane North PHN.

In this engaging session you will:

- discover the benefits of self-screening from both a general practitioner and patient perspective
- gain valuable conversation starters to encourage screening among reluctant populations in your practice
- learn about eligibility criteria, optimising practice workflows, and identifying eligible patients.

Don't miss this opportunity to enhance your knowledge and improve patient care. Register now and join us in advancing cervical screening for a healthier future!

**Please note:** There are two options for attendance, you do not need to attend both.

Brisbane North PHN is currently inviting interested practices to participate in a cervical screening self-collection project where practices will receive specialized one-on-one and phone support for the implementation of cervical screening self-collection and other benefits. For more information and to participate in this exciting initiative [click here](#).
