

Register now: A pulse-check on data, billing, and better heart care

18 August 2026 or 19 August 2026 | Kedron-Wavell

Join Brisbane North PHN for a practical PHASES education event designed to help general practices strengthen cardiovascular disease prevention while improving the use of practice data, clinical systems and everyday workflows.

Featuring Katrina Otto, these sessions will explore how to identify patients at risk using Primary Sense, improve clinical coding, optimise billing, leverage technology and AI, and translate high-quality data into better patient care.

Day session - for practice managers, nurses and administration staff
Tuesday 18 August 2026 9.00 am to 3.00 pm
VC Suite, Kedron-Wavell, 21 Kittyhawk Drive, Chermside

Topics include:

- introduction to PHASES
- identifying patients at risk using Primary Sense
- essential clinical coding requirements
- work smarter, not harder: data, billing and Best Practice/Medical Director efficiencies
- improving referrals, care plans and clinical handover through better data
- billing optimisation tips
- AI and emerging technologies in general practice
- practical actions to take back to your practice.

Evening session - for general practitioners
Wednesday 19 August 2026 6.00 to 8.30 pm
Donaldson Room, Kedron-Wavell, 21 Kittyhawk Drive, Chermside

Topics include:

- introduction to PHASES
- the GP's role in cardiovascular disease prevention
- identifying patients at risk using Primary Sense
- from risk to results: smarter CVD care in general practice
- improving referrals, care plans and clinical handover through better data
- advanced billing and workflow efficiencies
- emerging technologies and AI in general practice
- practical actions to take back to your practice.
