

Training Opportunity

Allergies and Anaphylaxis Program

Brisbane North PHN, in collaboration with Benchmarque, is offering a fully funded Allergies and Anaphylaxis (including CPR) program.

This practical training includes the nationally accredited CPR unit HLTAID009 – Provide Cardiopulmonary Resuscitation and is designed for health professionals who may be required to recognise and manage allergic or anaphylactic reactions in the workplace.

Participants will strengthen their confidence and capability to respond safely and effectively to emergency situations in a clinical setting.

Program highlights:

- learn to manage allergic and anaphylactic emergencies in a clinical setting
- develop CPR skills for adults, children, and infants
- understand the DRSABCD action plan, AED use, and emergency response protocols
- gain confidence in recognising and responding to unconscious casualties

Places are limited to 20 participants. Act now to secure your place in this fully funded training program delivered by Benchmarque. Expressions of interest close on **Friday 31 July 2026**.

For more information email primarycareevents@brisbanenorthphn.org.au.
