## Recognising, Diagnosing and Managing Dementia

This workshop will attract RACGP QI&CPD Program Category 2 (8 points - pending approval) and 4hrs CPD for nurses

Do you find the process of diagnosing and managing dementia in your practice challenging?

Do you think your training in how to diagnose and manage dementia in your practice has not met your clinical needs?

Would you benefit from a practical, step-wise approach to both the diagnosis and management of dementia in your practice?

If you answered yes to any of these questions, then this interactive practical workshop could be the one for you.

The workshop aims to improve the knowledge and skills of those attending to assist them to more confidently diagnose and/or manage dementia in the general practice setting.

This includes practice nurses experienced in caring for people living with dementia.

### Presenters:

Dr Karen Savery  
General Practitioner, Brisbane  
North Medical Educator, GPTQ

Dr Marita Long  
General Practitioner and  
Medical Educator, DTA  
GP Education Team
