

Community Advisory Committee Expression of Interest

Brisbane North Primary Health Network's (PHN) vision is a community where good health is available for everyone. Brisbane North PHN supports clinicians and communities in Brisbane's northern suburbs, Moreton Bay Regional Council and parts of Somerset Regional Council. It covers approximately 4,100 km² of urban, regional and rural areas, with a population of over one million.

We work with local communities, consumers, carers, health professionals, hospitals and community providers to understand our community and their needs. We then engage stakeholders to design and commission programs and services to meet those needs.

Our PHN's goals:

- be informed and led by community voice;
- re-orient the health system toward care close to home;
- build capacity of providers to meet health needs of our region; and
- be an accountable, high performing organisation.

The key objectives of the Brisbane North PHN are:

- increasing the efficiency and effectiveness of medical services for patients, particularly those at risk of poor health outcomes; and
- improving coordination of care to ensure patients receive the right care in the right place at the right time.

The PHN will achieve these outcomes by:

- understanding the health care needs of our community through analysis and planning, helping to identify and address service gaps;
- providing practice support services so that primary care providers are better placed to provide care to patients, keeping them healthy and out of hospital;
- supporting primary care practices in attaining the highest standards in safety;
- assisting primary care practices in understanding and making meaningful use of eHealth; and
- working with other funders to purchase or commission health services for local groups most in need.

Further information can be found at [About - Brisbane North PHN](#)

Community Advisory Committee (CAC)

The purpose of the CAC is to represent the communities of the region and assist the PHN with strategic input, planning and communications. The CAC is a forum to bring together diverse perspectives across a range of population and disease groups, particularly focused on those populations and/or diseases which are chronic and/or contribute to significant avoidable hospitalisations. Further information can be found [here](#) and Terms of Reference [here](#).

Applicants should demonstrate:

- their links to the community in the Brisbane North PHN region;
- a strong understanding of the needs and current priorities of identified [populations](#);
- extensive networks across the Brisbane North region amongst these populations; and
- the ability to engage constructively in a committee environment or willingness to learn.

Applicants will be selected as individuals, not as representatives of any organisation(s). Meetings are held quarterly from 1.00-3.00pm either virtually or at the Brisbane North PHN Lutwyche office. We are seeking new members to join us by the meeting on Wednesday, 16 November 2022. A small meeting fee is paid and out of pocket expenses are reimbursed. Approximately one hour per month (unpaid) should also be expected for preparation and out of meeting discussions. Additional opportunities will arise from time-to-time to be involved in consultation and co-design processes.

Please send your Application form to Jayne Mason-Johnson at Jayne.Mason-Johnson@brisbanenorthphn.org.au by **Wednesday, 31 August 2022**.

Application – Maximum of two pages
