

Caboolture Hospital Cancer Care Service

Opening 2 December 2025

- The new Cancer Care Service at Caboolture Hospital will house an adult 8-chair Cancer Unit. It will operate Monday to Friday 8:00am – 5:00pm.
- It is located within the Main Building at Caboolture Hospital
- The Day Chemotherapy Unit is managed by the Royal Brisbane and Women's Hospital (RBWH) Cancer Care Services. It will support patients residing in the Caboolture region and surrounding suburbs.
- The service will provide a range of cancer treatments, including the administration of chemotherapy, immunotherapy, and other supportive therapies for medical oncology and malignant hematology patients.
- The service will also support Haematology patients with non-malignant blood disorders.
- We offer outpatient services such as:
 - Medical consultations for haematology and medical oncology conditions
 - Administration of chemotherapy and other anti-cancer therapies, blood product support and supportive therapies
 - Management of central venous access devices
 - Specialised education, information
 - Care coordination of treatment for side effects and symptom management.
- Inpatient care for cancer patients will be provided by Caboolture hospital medical physicians.
- Radiation oncology consultations will continue to be delivered by our team in the Caboolture Hospital Specialist Outpatient Department.
- Radiation therapy is only offered at the Royal Brisbane and Women's Hospital (RBWH). Travel arrangements can be organised by RBWH Radiation Oncology department with the Metro North Caboolture to RBWH Shuttle Service.
- Geriatric oncology services will continue to be provided by Caboolture Hospital.
- All referrals are managed through the RBWH Cancer Care Services Referral Centre and Central Patient Intake Unit and assessed against service eligibility criteria.
- **Who to contact?**

For general questions about the Day Chemotherapy Unit you can contact our Clinical Nurse Consultant on 0475 160 581.
